

JYOREI

If we can only find a way of curing sickness then it is inevitable that cures for poverty and strife will follow. And if these are achieved, then humanity will have found the basic conditions for happiness.

Jyorei and Happiness. HT

Divine Light

Jyorei is divine Light. It comes from Spirit, not matter. Jyorei is different from physical light, which consists of minute particles of energy called ‘photons’ traveling at enormous speeds through empty space. Jyorei is coherent patterns of energy that bring order out of chaos and harmony out of discord.

This Light extends throughout the cosmos, infusing all things with its sublime radiance. Without this Light, nothing could exist. It is the Light that gives expression to the clouds in the sky, the fish in the sea, and the thoughts within our minds. It is the mysterious energy that animates our heart, our lungs, and our breath.

Although divine Light is everywhere, most of us cannot sense it because it is invisible and intangible. This Light exists within us as well, yet we usually do not notice it because of our ignorance and attachments. Because the Light of Jyorei is weightless, it can help us to feel lighthearted; because it is transparent, it can help us to see things clearly; and because it is bright, it can help us to find our way through darkness.

When we share Jyorei, we access and focus this energy for the benefit of others. Through receiving the blessings of Jyorei, our spiritual clouds—the root cause of all suffering—are dispelled. Jyorei promotes health and spiritual growth, which leads to greater happiness.

God, appearing in the form of Kannon, gave this divine power to Meishusama to heal and awaken as many people as possible. They, in turn, were often encouraged to share it with others so that the blessings could spread still further. Jyorei is now being shared with people throughout the world, in the six continents of Asia, Africa, North and South America, Australia, and Europe. Thus, as one candle lights another, the world grows increasingly brighter until every corner is set ablaze in brilliant Light.

The appearance of Jyorei in the world today coincides with a higher frequency of spiritual energy entering our world at this time. We are approaching a new age in which the element Meishusama calls the Spirit of Fire is growing stronger, promoting increased miracles of healing and spiritual awakening.

The advent of Jyorei in the material world is, of course, a harbinger of the ideal world to come, for Jyorei is at the very heart of the Age of Day. – The Strata in the Spiritual World. HT
